INTRODUCTION

ABOUT ME

Hey, I'm Amanuel — a YouTube thumbnail designer passionate about creating visuals that grab attention in seconds. I mix storytelling, color, and emotion to turn ordinary videos into must-click content. Every thumbnail I make has one goal: make people stop scrolling and click.

Designing a thumbnail isn't just about making something look good — it's about capturing attention, emotion, and curiosity in one image. A good thumbnail tells the story of the video before anyone even clicks. It's the difference between being scrolled past and getting watched.

SKILLS AND EXPERTISE

I specialize in designing thumbnails that blend creativity with strategy. My skills include visual storytelling, composition, color psychology, and typography. I understand how to balance emotion, contrast, and clarity to boost click-through rates. From bold titles to expressive faces and cinematic lighting, I know how to make a video look worth watching before anyone presses play.
